Notes & Methodology

1. Date Tested: 11/18/2026. Methods: Blend Purity, Identity & Quantitation (HPLC).
2. The sample was confirmed to be Epitalon / Pinealon by HPLC. Identification by chromatographic retention time comparison with a reference standard.
3. Per-component content determined by individual peak integration. Not all labeled components may be present.
4. Quality System: ILS Laboratories operates an ISO/IEC 17025 quality management system. Peptide testing is performed for Research Use Only.
5. This certificate reports analytical results for the sample(s) submitted to ILS Laboratories for testing. All sample identifications, product names, brand names, lot/batch numbers, and labeled content are provided by the submitting party and have not been independently verified. Results reflect only the analytical testing of the specific sample(s) provided and do not constitute an evaluation or endorsement of the manufacturer's processes, quality systems, or overall production. ILS Laboratories makes no representations regarding the intended use, safety, efficacy, regulatory status, or intellectual property ownership of any materials tested.
